

GUIDE TO COLOR CONTROL

UNIFORM COLOR
An AUDIA® Company

**A Spectrum of
Solutions.™**

COLORING THE PLASTICS WORLD.

Color science seems complicated, but it doesn't have to be. Learn what happens when we view color and use the proper techniques for controlling it. Our most popular workshop will have you speaking the same color language with your suppliers, customers, and peers by the end of day!

What we cover:

1. The basics of color
2. The color tool box
3. The measurement of color
4. Color control
5. Molding troubleshooting

Who should attend?

The workshop is designed to give a general overview to those who are interested in learning more about color science and working with colorants for plastics. Some workshops are more technical in nature, while others are more design oriented. Uniform Color's workshop provides easy-to-understand information that could help those in purchasing, quality, design, engineering, sales, marketing, brand management, or manufacturing roles.

What is the cost?

The color science workshop is offered at no charge to Uniform Color customers.

Where is the location of the training?

We'll bring the training to you! You tell us where and we'll be there.

Contact Uniform Color to schedule your color science workshop.
